The Oil Factor	An oil that goes the extra mile! O&3 presents Argan Oil, Cold Pressed Deodorised. We support various women's cooperatives in Morocco to bring you a high grade Argan oil. Interestingly the Argan nut is harvested both using the Argan tree itself & the local goats. The goats like to climb the Argan tree to consume the fruit. Luckily the nuts remain & are collected by local women cooperatives, the kernels are then split (to get to the nuts) & then the nuts gently cold pressed to deliver a highly functional, vitamin E rich ingredient that has widely become a cosmetic super power ingredient in the past 5 years. We wouldn't list an application for this ingredient as there are no limits, hair, skin, feet, baby bottoms, we could go on. Incredibly versatile. It is worth noting the Cold Pressed version is stinky, so we introduced this lightly Deodorised grade (our most popular grade), you keep the benefits of the oil but remove the smell.
Functionality	Extremely rich in Vitamin E, the natural antioxidant. Rich in polyunsaturated fatty acids. High levels of Oleic acid. Incredibly versatile & appropriate to use in a wide variety of formulations/ applications. Light deodorisation removes the smell but maintains the benefits. Purchasing this oil is benefiting the livelihoods of many women cooperatives in Morocco. Do it for the ladies!
