| <b>The Oil Factor</b>   | A powerhouse oil! O&3 presents Moringa Seed Oil, Cold Pressed. This ancient ingredient (once used by the Egyptians to protect them from the harsh desert environment) has really come into its own in modern day cosmetic application. Proteins, minerals, vitamins, it has it all. Moringa is a replenisher of the skin, it brings vibrancy through its enriched nutritional profile. The antioxidants within the oil aids in the prevention of free radical damage to skin tissue (i.e. the creator of wrinkles). It carries cytokinins which encourage skin cell growth, so works very well in deep skin moisturisers & after-sun products. It is also rich in Vitamin C, which we all need to maintain a healthy complexion 'glow'. Its high protein content helps in protecting your skins dermal cells from damage caused by heavy metals such as mercury & cadmium. So a replenisher & protector. Well, if it was good enough for the ancient Egyptians... |
