The Oil Factor	Burning bright & for longer! O&3 presents Soya (Eco C3), Wax. A popular base for most candle manufacturers, there is good reason for this. Soya (Eco C3), Wax burns at lower temperatures in comparison to traditional candle base waxes. This allows your candle formulation to be more robust & burn for longer. It serves as a great base to allow you to add whatever fragrance/aroma you require, it can carry pretty much any scent giving you increased flexibility. This product is totally bio-degradable & produced very naturally using NON genetically modified Soyabean oil. If you are looking to start a candle range this would be our No.1 base recommendation as you can use this base & create numerous different flavoured candles. Keeps things nice & straightforward!
Functionality	Naturally produced using 100% NON genetically modified material. Burns at a lower temperature in comparison to traditional waxes, meaning it is one of the more robust waxes in the market. Very versatile with regards to fragrances. It can carry pretty much any fragrance/aroma. A cost effective starter base to your candle making business.
